

# Wetlands Discovery Program

## Pre-and-Post Worksheet Diagrams

Please use the following diagrams to answer questions #11 and #12 on BOTH the student Pre-Program Worksheet and the Post-Program Worksheet.

### #11: Food and Energy Cycle

Use the diagram of a general Energy Cycle, below, to help you answer question #11 on the online survey.

Match the following Energy Cycle components with the role that each **BEST** fits (two examples are given):

**Northern Harrier**  
(a type of Hawk)

**Grasses or other Plants**

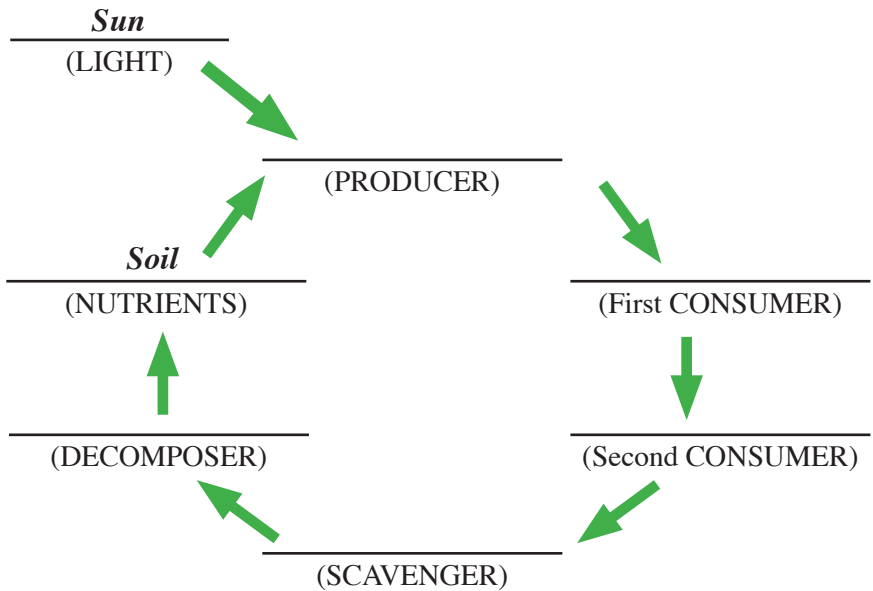

**Turkey Vulture**

**Soil**

**Mouse**

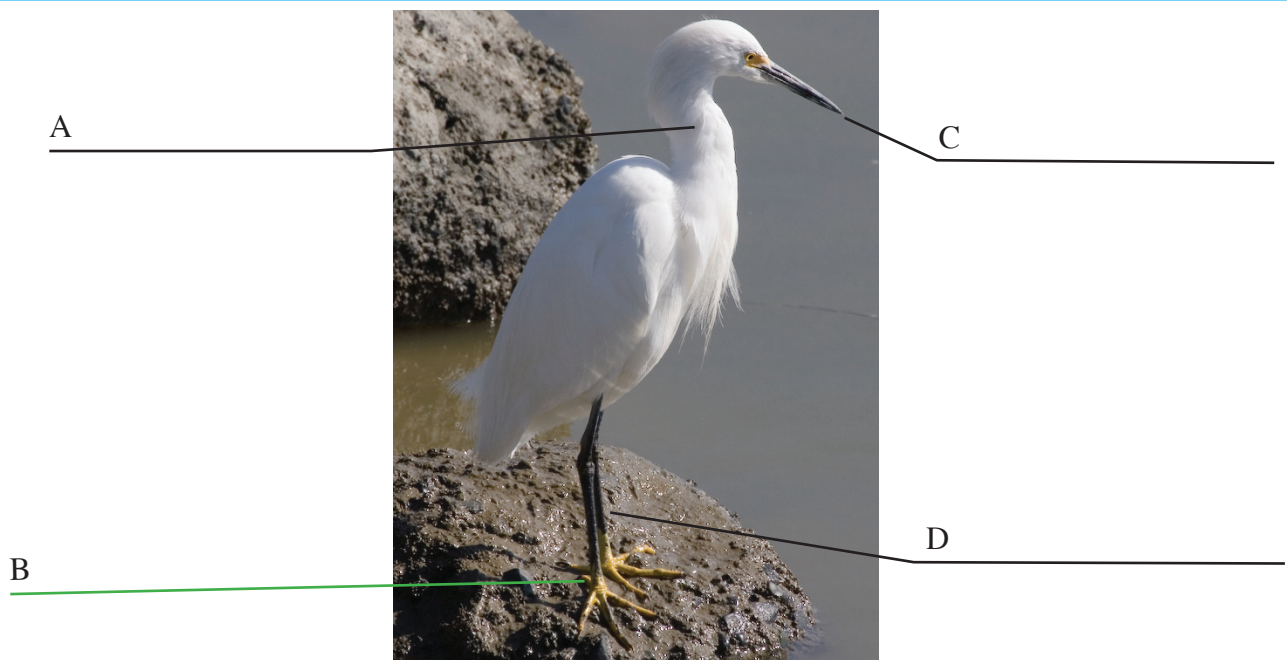

**Worm**

**Sun**

### #12: Adaptations

Use the diagram of a Snowy Egret, below, to help you answer question #12 on the online survey. Describe how each of the labelled parts - A, B, C, and D - are an adaptation for the egret living in a wetlands.
